

## B-Series V/UHF Mobile Antenna

Light weight, Slim, Black colored Antenna

### Features:

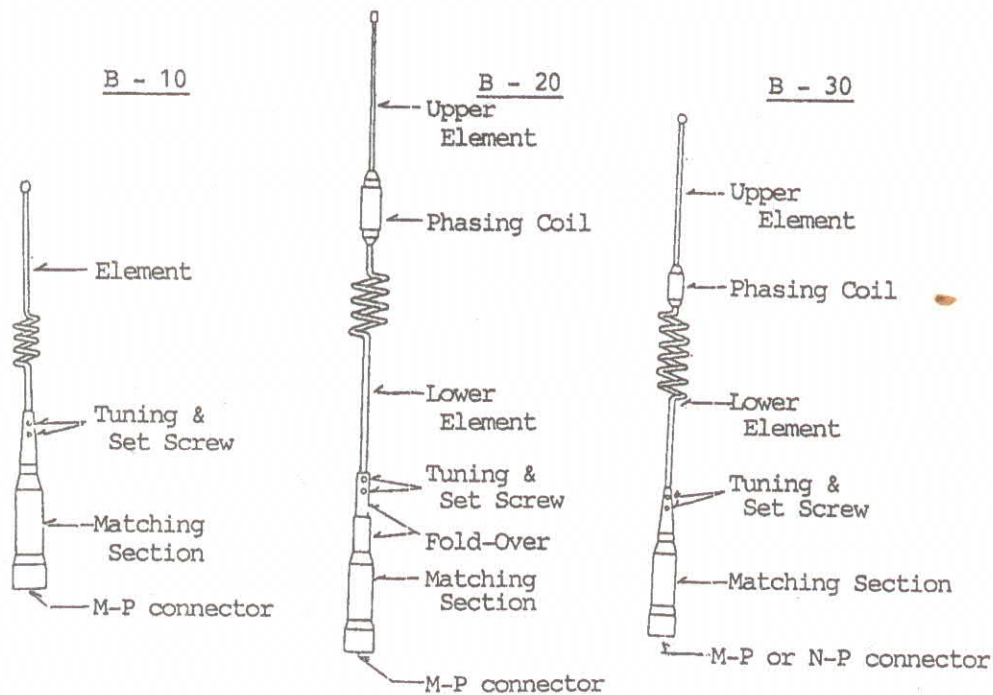

- 1) All black colored, simple, new slim look, feather weight antenna.
- 2) Frequencies are completely tuned before delivery, then, no frequency adjustment is necessary.
- 3) The additional use of COMET duplexer or triplexer (CF-416, CFX-431 etc.) allows dual or triple band operation in one time.

### Note:

- \* B-Series antenna needs no frequency adjustment. Finest adjustment, however, can be done, sliding the element up/down unfastening the Tuning & Set Screw by the wrench.
- \* Because the B-Series Antenna includes high UHF bands ( 146,446MHz ), please use high quality coax. cable of 50 ohm standard.

### Specifications:

Model	B-10	B-20	B-30
Frequency (MHz)	146/446	146/446	146/446/915
Gain (dB)	0 / 2.15	2.15/ 5.0	0 / 2.15 / 4.5
In-Put Power	50w total	50w total	50w total
Impedance	50 ohm	50 ohm	50 ohm
V. SWR	Less than 1: 1.5	Less than 1: 1.5	Less than 1: 1.5
Length (Approx.)	0.3 m	0.775 m	0.442 m
Weight	72 g	130 g	80 g
Connector	M- type	M- type	M or N-type
