These NEW Features...

**Plus all the great features that put the
 GALAXY V in a CLASS by ITSELF!**

- New 400 Watt Power
- New Precise Vernier Logging Scale
- New Solid-State VFO
- New CW Sidetone Audio
- New CW Break-In Option
- New CW Filter Option

- Smallest of the High-Powered Transceivers. (6"x10¼" x11¼").
- Great for either Mobile or Fixed Station. No compromise in power.
- Hottest Receiver of any Transceiver — Special New Six-Crystal lattice filter.
- Complete 80-10 Meter Coverage. 500 KC on all bands, with 1 Megacycle on 10 Meters.
- Both Upper and Lower Selectible Sideband.
- Highest Stability. Drift less than 100 CY in any 15 minute period after warmup.
- The personal drift chart of every Galaxy that comes off our line goes with the unit to its new owner!
